Sited in Memorial Park in Eastchester, NY, a half-acre park with plantings, monuments, and benches will be unveiled September 28. A memorial, designed by Westchester County-based architect and designer Peter F. Gaito + Associates, Architects and Planners, will honor the Gold Star Mothers, a 78-year-old national organization that honors mothers whose children served and were killed in war. According to Peter Gaito, AIA, the seven foot bronze statue will depict a mother and her young son holding hands and walking into the future.
